SAIF ALI KHAN

Interior Designer

About me

I am a civil engineering graduate with a strong passion for interior and architectural design. I specialize in planning functional spaces, preparing accurate drawings, and visualizing interiors that balance aesthetics, comfort, and practicality. I have a strong interest in construction site execution along with designing, and I enjoy understanding how designs are practically implemented on site. As a Experienced interior designer, I am highly motivated to learn, adapt, and continuously enhance my design and technical skills while contributing creatively to projects.

A modern contemporary residence defined by bold volumes and sharp lines, finished in a monochrome palette of white, charcoal grey, and black, complemented by warm wooden screens and subtle accent textures for contrast and depth.”

C-BEDROOM

Customer Testimony

”

I am very pleased with the quality of the products. Both the design and the materials used are always the best. I love it.

”

Design and materials as well as service are always the best. It never disappoints so it's always my choice regarding home furnishings.

”

I really like the design of the furniture, modern and minimalist and a large selection of products to suit my needs.
